1. An \_\_\_\_\_ (interest) teacher can really get students

\_\_\_\_\_ (excite) about a class. If students are

\_\_\_\_\_ (interest) and \_\_\_\_\_ (excite),

they will learn more.

2. When a class is \_\_\_\_\_ (overwhelm), students should try to get

extra help before they feel completely \_\_\_\_\_

(overwhelm). Sometimes it is \_\_\_\_\_ (frighten) to ask

a teacher for extra help but it is a custom in the U.S. If a student doesn't seek help, the

teacher will be \_\_\_\_\_ (disappoint).
